

## ASPHALT RELEASE AGENT

This product is an eco-friendly release agent designed to help prevent asphalt from adhering to surfaces. Its water-based formula creates a non-stick, slippery surface that stops asphalt from sticking to surfaces.

It can be applied to delivery truck beds, shovels, and other tools.

### **DIRECTIONS**

[PRODUCT : WATER]

Dilute the product 1 : 5 to 1 : 15 with water. Apply to surfaces that will come into contact with asphalt. For best results, apply with a foaming unit.

**FOR COMMERCIAL USE ONLY**
